

## WINERY PROFILE: MACPHAIL

From the beginning, which isn't all that long ago, we've believed that wine is art with a splash of science. Our first vintage was 2002, so you haven't had a long time to get to know us. But we're easy. We use traditional, old-world winemaking techniques with minimal intervention to deliver wines that are flavorful enough to tell you a lot about our exceptional vineyards in Sonoma County and Mendocino's Anderson Valley. We forge strong partnerships with growers willing to join us in this ongoing adventure.

Matt Courtney has a simple goal as a consulting winemaker for MacPhail: capture the individuality of each vineyard site and let it express itself in your glass. His focus is the vineyard, and he has worked with many MacPhail growers for years.

Our Proprietors, Tim and Sabrina Persson take the long view as stewards of MacPhail Wines. After all, they are the fifth generation of the Hess family to watch over the family's wineries. As Tim likes to say, take a peek in the wine rack at home and you'll have no doubt how often MacPhail is a part of the family's wine selections.
